what is the archetypal image that comes to mind when one thinks of an infinite graph what with a finite graph when it is thought of as opposed to an infinite one what structural elements are typical for either by their presence or absence yet provide a common ground for both in planning the workshop on cycles and rays it had been intended from the outset to bring infinite graphs to the fore as much as possible there never had been a graph theoretical meeting in which infinite graphs were more than also rans let alone one in which they were a central theme in part this is a matter of fashion inasmuch as they are perceived as not readily lending themselves to applications in part it is a matter of psychology stemming from the insecurity that many graph theorists feel in the face of set theory on which infinite graph theory relies to a considerable extent the result is that by and large infinite graph theorists know what is happening in finite graphs but not conversely lack of knowledge about infinite

graph theory can also be found in authoritative sources for example a recent edition 1987 of a major mathematical encyclopaedia proposes to restrict itself to finite graphs since only they give a typical theory if anything the reverse is true and needless to say the graph theoretical world knows better one may wonder however by how much

introduction to optics is now available in a re issued edition from cambridge university press designed to offer a comprehensive and engaging introduction to intermediate and upper level undergraduate physics and engineering students this text also allows instructors to select specialized content to suit individual curricular needs and goals specific features of the text in terms of coverage beyond traditional areas include extensive use of matrices in dealing with ray tracing polarization and multiple thin film interference three chapters devoted to lasers a separate chapter on the optics of the eye and individual chapters on holography coherence fiber optics interferometry fourier optics nonlinear optics and fresnel equations
